

**SPECIAL TRAIN OF OGDEN PARTY**

Passed Through Richmond on Yesterday Over the Atlantic Coast Line.

**FIVE MILLION FOR DEPOTS**

Southern Railway Builds a Cut-Off Sixty Miles Long, Saving Eighty-four Miles.

The Armstrong Association excursion from New York to Tuskegee, Ala., passed through Richmond on yesterday at midday on its return trip.

The special train of eight Pullman cars traveled over the Atlantic Coast Line to Richmond, and over the Richmond, Fredericksburg and Potomac north.

According to a report from Norfolk, Va., the Atlantic Coast Terminal Company, chartered there several months ago, proposes to spend more than \$5,000,000 for freight and passenger terminals not only for steam railroads, but for electric railroads as well, on the property known as the "Swimming Point Plate," near the Naval Hospital.

The design is said to be for quicker service in the exchange of passengers between Norfolk and Portsmouth by a ferry located on this property, which will have a landing directly opposite.

The president of the Atlantic Coast Terminal Company is J. W. Perry, and the vice-president is W. W. Moss, president of the Citizens' Bank, both of Norfolk.

Word has been received here at the office of the Southern Railway Company that plans have been completed for constructing sixty miles of railroad, connecting the Cincinnati, New Orleans and Texas Pacific Railroad with the Tennessee Central. This will cut off eighty-four miles of the Southern Railway's line between Cincinnati and Nashville. The new line will be built by the Kentucky and Tennessee Road Company, construction of which was begun about a year ago by Cincinnati capitalists owning extensive mineral rights in Southeastern Kentucky and North-eastern Tennessee. The line will begin at Starns, a small way station on the Cincinnati, New Orleans and Texas Pacific, between Burnside and Sloan's Valley, and extend to Johnson Stand, on the Tennessee Central, near Monterey, Tenn. Besides shortening the Southern's route between Cincinnati and Nashville, the new road will develop territory known to be rich in lumber and coal. It will be owned by the Southern Railway.

President Edward A. Buell, of the Elizabeth River Railroad Company, is reported as saying that the line will be constructed immediately from Berkeley, Va., into the District Swamp region. John Scott, of Chillicothe, Ohio, is also said to be interested.

The Cumberland Traction Company, of Big Stone Gap, has been incorporated to build a railroad. W. T. Goodloe is president, and J. S. Wright is secretary and treasurer, both at Big Stone Gap, Va.

Information received from Pittsfield, Va., says that Mr. J. E. C. Burr, who has been building a narrow-gauge road two and one-quarter miles long into his extensive hematite ore properties, expects to have it in operation for the shipment of ore about April 15th. He has built a washing plant and has developed the ore lands.

The Pennsylvania Railroad Company has placed an order for 100 locomotives, making 250 ordered for this year. The company still has space for another 100 engines. In other words, the company first placed an order for 100 locomotives and now has ordered 250, of which 100 are now ordered.

**TRAINED ANIMAL SHOW.**

**D'Alma's Dogs and Ponies Will Entertain Richmond People**

Whether or not Darwin is correct in his theory, there are certainly a great many characteristics of the monkey that are almost human. This fact is forcibly impressed on visitors to the Washington and D'Alma's trained animal show, who see the mammoth collection of the monkey family with this big show. Mr. D'Alma, one of the foremost of all animal educators, can tell many interesting stories about these creatures, and he is indeed, who can listen to him relate some of the interesting and humorous incidents that daily happen. All the monkeys with this show, and there are nearly a hundred, all told, are trained by hand, and they seem to possess a great deal of humor, and delight in playing tricks upon one another. Little Perry is perhaps the brightest of the lot. This monkey actually loops the loop and turns a complete somersault, with his hind legs, and he can walk on his hind legs. "Gus," the swell of Broadway, is attired in a frock coat, trousers of the latest cut, a check vest, high hat, carries a cane, and a little dog follows closely at his heels. Other tricks the monkeys include a bicycle, net, wheelbarrow, impersonating waiters and hotel carriers, and many other things too numerous to mention. Monkey shows even if it rains, all next week at Vine and Main Streets.

**ENJOYED MUSICALES.**

**Entertainment at Third Presbyterian Was Delightful.**

The musicale given in the lecture-room of the Third Presbyterian Church on last Thursday evening, under the efficient management of Captain Frank W. Cunningham, proved to be a decided success in every way, and that it was thoroughly enjoyed was shown by the hearty applause which greeted the close of each number.

The quartette, composed of Messrs. Cunningham, Tucker, Mathews and Lohman, rendered several beautiful selections, one of which deserves special mention—"Slumber Dearie" (Giff). Mr. Clarence D. Wicks captivated the audience with several of his fine songs, and Mrs. Buchanan's rich contralto was heard to fine effect in the little song, "Four-Leaf Clover." A most pleasing feature of the entertainment was Miss Fayne Leach's reading and her fine rendition of "A Darky Sketch," which was particularly fine.

The committee desire to express their thanks to Captain Cunningham and his friends for this delightful entertainment.

**Latin-American Conference Ends**

(By Associated Press.)  
NEW ORLEANS, La., April 7.—The concluding session of the Mississippi Valley Latin-American conference was held today. The feature was an address by D. W. Ross, purchasing agent of the Ishmian Canal Commission.

Mr. Ross pointed out the policy adopted by the commission in the matter of furnishing supplies while the work is in progress, and declared that the aim is to put all ports on an equality in bidding for contracts in order to bring an end to the favoritism which has been the rule.

There was a splendid opportunity, he said, for the whole Mississippi Valley to develop trade with the Isthmus through New Orleans and other Southern ports.

**GOVERNOR GLENN ON STRANGE GODS**

He Preaches a Strong Sermon to the Epworth League of Raleigh.

**ENTOMOLOGIST TO RETURN**

The Railroads Decide on a Site for the Union Depot at Greensboro.

(Special to The Times-Dispatch.)  
RALEIGH, N. C., April 7.—Governor Glenn in an address delivered last night before the Epworth League of Raleigh, at Edenton Street Methodist Church, against "strange gods." In his characteristic, vigorous manner, he besought his hearers to avoid the mad rush for riches so prevalent in this age. He discussed "good" and "bad" ambition and lamented the fact that all over North Carolina there are men who are forming alliances, with saloons, bucket shops and other evil elements in the hope of attaining political preferment at the sacrifice of honor. He laid down as a test for pleasures the rule that if card playing, dancing or other amusements lessened ones zeal for Christianity, or prevented their usual fervency in prayer, then they were sins for them and should be left off.

It is learned that Mr. Franklin Sherman, Jr., who retired after six years service about a year ago from the position of State entomologist, to take a professorship in the A. & M. College, of Ontario, Canada, will come back to this State and assume his old position. He did a splendid work for North Carolina, and the announcement that he will return comes as welcome news in every part of the State where his work has been known and appreciated.

The Corporation Commission received notice from the Atlantic Coast Line, Southern and Atlantic and North Carolina Railroad companies this afternoon that they have agreed on a location for a union depot at Goldsboro, to be in the western suburb of the town, the tracks to skirt the town rather than traverse the main street, as at present. A map showing the location of the proposed site is filed, their selection being subject to the approval of the commission.

In the Superior Court today there was a pitiful case, in which Frank Gilbert, a white boy, who came here from Greensboro, pleaded guilty of stealing a watch from Mrs. C. O. Pitts, who had befriended him by providing him a home for a few days. R. H. Hayes, of Pittsboro, entered the plea for the boy that he was of an excellent family and the judge had received letters from the boy's sister in Chatham county, pleading for his brother.

Judge Council stated that there was evidently need for him to deal out some punishment to the boy as a correction. He regretted that the State did not have some place of correction for boys, and passed sentence that he be sent out to the county farm for six months.

**GREAT REVIVAL AT EXPOSITION**

Suggestion of Few Christians for Large Evangelical Work at Jamestown.

**THE NAVAL REPRESENTATIVE**

Secretary Bonaparte Appoints Admiral Harrington, of the Navy Yard.

(Special to The Times-Dispatch.)  
NORFOLK, Va., April 7.—Will there be a great religious revival in Norfolk and all Tidewater Virginia during the Jamestown Exposition?

This question is made possible by the meeting in the law office here of Mr. John B. Jenkins of a small band of churchmen, who suggested the idea, which is yet merely an idea. A plan to have another meeting in the near future, to which other churchmen of all the denominations will be invited, is on foot. An effort will then be made to answer the question, and it will probably be answered in the affirmative. The churchmen are deeply interested in the proposition.

Should the revival be undertaken, an effort will be made to unite all Protestant churches for it, and to conduct it as if it were in the hands of a single denomination. Those now interested in the proposition are anxious to see in it one of the greatest opportunities for evangelism ever presented. It is probable that some of the greatest revivalists in the world would be brought here to lend the meeting.

Rear-Admiral Purnell F. Harrington, U. S. N., commandant of the navy yard here, has been honored by Secretary of the Navy Charles J. Bonaparte with the appointment as chairman of the naval representatives at the official opening of the Jamestown Exposition on Hampton Roads next year.

J. D. Beard, fifty-four years old, the house carpenter from Lambert's Point, and who fell three stories from a new building being erected opposite the Protestant Hospital, in Ghent section, yesterday afternoon, sustaining serious injuries, died at the above hospital last night.

His remains will be forwarded via the Norfolk and Western Railway to Roanoke, Va., where Mr. Beard resided before moving to Norfolk. The deceased leaves a widow, one son and two daughters, these being Charles Beard and the Misses Oille and Lucy Beard.

**A HIGH SCHOOL FOR GREEN BAY DISTRICT**

Prompt Response to Aid From High School Fund.

(Special to The Times-Dispatch.)  
GREEN BAY, Va., April 7.—The establishment of a high school here is assured through the action of a meeting of the citizens of this school district.

The offer of assistance from the State fund of \$50,000 appropriated by the last Legislature was readily responded to. The offer to furnish two dollars for every dollar subscribed by the citizens up to five hundred met with favor, and three hundred and fifty dollars was subscribed. One hundred and fifty more will be secured in a few days.

Professor J. W. Thomas, school inspector for the Third Circuit, was present and made an able address, as was also Professor J. H. Davis, superintendent of schools of this county.

The consolidation of three schools of this county will be necessary to obtain the required number of pupils to commence this school, and it is also a requirement that the primary schools shall have at least fifteen pupils ready to enter a high school, which requirement was also met.

The offer to this district in the first made any district in the county, as only two were to be had in each county. This district was willing and glad to avail itself of the opportunity. A lot will be selected in the village on one or the other of the two lots in which the school board now has in view.

The reaching of the school will be accomplished by hauling the scholars in covered wagons. Mr. Thomas showed to the satisfaction of all in his talk that this had worked with great success wherever adopted.

The high school will have one principal and two assistants.

Mr. L. D. Jones, chairman of the Leigh school board, deserves more credit than any other one man in bringing about the establishment of this school. He has been most successful in getting the people to favorably consider the proposition at first.
